MEET THE CONDOR!

OUR BOAT

Capacity of 127 People

Built in 2001, the Condor Express is a 75′ jet powered catamaran designed for high speed comfort. The dual hull design provides maximum stability in any ocean conditions, and the jet drive eliminates the danger a propeller could pose to marine wildlife.

Powered by four computer controlled, low emission, 740HP Detroit Diesel Motors, the Condor Express is capable of cruising at 30+ knots. At these speeds, we can make it to the Channel Islands in 45 minutes, faster than nearly any other boat of its size on the central coast!

SCHEDULING & BOOKING

Santa Barbara has often been referred to as the "American Riviera," and the similarities are remarkable. The east-west orientation of the coastline, the mountains in the background, the sea washing miles of uncluttered beaches in the foreground, give this beautiful city a decided Mediterranean visage. With beautiful sunsets, stunning coastal and mountain scenery, and the exuberance of friendly dolphins and sea lions playing along side the boat, few settings can compare to an event on the Condor Express.
